### "Emerging Triple Helix Models for Developing Countries: from Conceptualization to Implementation"

The upcoming Triple Helix 10th International Conference - 2012 (TH 2012) is the tenth in a series of biennial conferences that started sixteen years ago to consider the interaction between university/research institution, government, and industry, and its influence on the economic development of specific regions.

TH 2012 will be organised by the Institut Teknologi Bandung (ITB) through its School Business of Management (SBM-ITB) together with the Ministry of Research and Technology (Ristek) and the Directorate General of Higher Education, the Ministry of Education and Culture, Indonesia (Dikti).

The Conference will be held in Bandung, West Java, from 08 to 10 August 2012. The main theme of the Conference is: *"Emerging Triple Helix Models for Developing Countries: From Conceptualization to Implementation"*, with attendant key theme of: (1) Strengthening National Innovation Policies in Developing Countries; (2) Building Infrastructure; (3) Success Stories in Enhancing the Relevance of the Triple Helix Model.

The event will be held in the historical hotel of Grand Royal Panghegar Hotel, Bandung, and is expected to attract some of 400 international participants. TH 2012 offers an ideal place to learn of the latest aspects of triple helix innovation in developing countries, in particular, in the regions of South-East Asia (ASEAN Members), emerging industrial countries, as well as across the world.

#### ON-LINE SUBMISSION OF ABSTRACTS

Authors are invited to submit Abstracts for the Conferences, through the website: <http://thc2012.ristek.go.id/>, where further instructions are available. Abstracts should include a paragraph on the importance of Triple Helix interactions and innovation for growth and economic success particularly for developing countries, and should identify the key themes associated with the paper. Please note for the closing date for submission of Abstracts is:

**10 December 2011.**

#### Deadlines

Closing date for Abstract submission	: 10 December 2011
--------------------------------------	--------------------

Notification of Acceptance	: 10 February 2012
----------------------------	--------------------

Submission of Full Paper	: 10 April 2012
--------------------------	-----------------

Notification of Full Paper Acceptance	: 10 May 2012
---------------------------------------	---------------

Submission of Camera Ready Paper	: 10 June 2012
----------------------------------	----------------

### Key themes

The above mentioned main theme and key themes are divided into several sub-themes. Submitted papers are expected to belong to one or other of the sub-themes. These are:

#### A. Strengthening National Innovation Policies in Developing Countries: Grouped into specific Sectors such as:

1. Universities and R&D Institutions  
Building entrepreneurship and social transforming leadership in universities/R&D institutions: Emerging and new approaches for the management of R&D institutions in developing countries.
2. Business  
Introducing R&D activities as the gauging factor for the management of innovativeness in businesses.
3. Government  
Reconstructing the holistic profile of governments in deploying innovation
4. Communities  
Strengthening the communities, combating poverty in the developing countries, expanding the civilisation achievement
5. Developing Countries Issues  
The Triple Helix concept as innovation strategy for transforming developing countries: cases learned from developing countries and in the context within ASEAN.

#### B. Building Infrastructure

Papers under this theme would relate to the development of innovation infrastructure in the following sectors:

- |  |                           |
|--|---------------------------|
| 1. ICT                                   | 5. Food                   |
| 2. Automotive/Transportation Innovations | 6. Health and medicine    |
| 3. Defence                               | 7. Advanced materials     |
| 4. Energy                                | 8. Science parks/centres. |

#### C. Success Stories in Enhancing the Relevance of the Triple Helix Model

In this section, papers are invited on creating live policy issues that address specific aspects of how the "Triple Helix" concept and academia/business/government interactions can spur the innovative capacities and capabilities of developing countries. The objective is to stimulate discussion or dialogues and policy development that will bring to the fore the role of innovation can play in the economic growth and success in developing countries. Well-articulated statements here will offer an important framework for dialogue/ discussion/presentation and for the dissemination of knowledge and experience that will enhance the relevance of the Triple Helix Model in the developing countries, particularly among ASEAN Countries. Therefore, the subject areas are expected to cover:

1. Background
2. Scope
3. Detailed description, including any related or associated problems and inadequacies.

### DETAILS
